NOTE:
1. SEE SHEETS C1-C30 FOR GRADING PLANS.
SPECIAL NOTES:

PERFORMANCE CRITERIA (PLANTING & SEEDING WARRANTY):

- The Contractor shall be responsible for achieving the following performance criteria:

- Land Vegetation: herbaceous, woody, and mixed plantings must be established and maintained.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

- Woody Plant Material: trees, shrubs, vines, and ground covers shall be maintained and replaced to a 70% survivability rate.

#### GENERAL NOTES:
- Species listed above are sorted by indicator status.
- Indicator Status derived from national List of River Species That Occur in Wetlands (Region 5 - Great Plains).
- Height at 30 years data derived from LUSG Plant Database.
- Spread data derived from literature and professional judgement of species form and habit.
- Plant spacing varies.
- Planting areas are to be seeded to native grasses and wildflowers to accommodate bird use.
- All planting areas are to be maintained and monitored for invasive species. (Refer to site plan for details.)

#### PLANTING ZONE NOTES:
- **Zone 0 - Seeding & Weed Management (Outside the Project Limits):** Includes riparian/wetland areas outside of Project Limits (budget depending).
- **Zone 1 - Weed Management Only:** Includes weed management and analysis plan prepared by Project Limits.
- **Zone 2 - Upper Riparian Trees & Shrubs:** Includes riparian/treed areas located between Zones 3 & 4 and within 500 feet of the Project Limits.
- **Zone 3 - Lower Riparian Trees & Shrubs:** Includes riparian/treed areas located between Zones 4 & 5 and within 500 feet of the Project Limits.
- **Zone 4 - Lower Riparian Trees & Shrubs:** Includes riparian/treed areas located between Zones 5 & 6 and within 500 feet of the Project Limits.
- **Zone 5 - Willow Cutting:** Includes the streambank, gravel bars, riparian floodplain, and interior floodplain areas between the 2 year and 25 year floodplain boundary.
- **Zone 6 - Willow Cutting:** Includes the streambank, gravel bars, riparian floodplain, and interior floodplain areas between the 2 year and 100 year floodplain boundary.

#### ZONE 3A - Willow Cutting:
- *Total Plants: 105,100*
