This map is intended to help inform a planner's assessment of the aesthetic view characteristics from Boulder County's roadways and to serve as a tool to support implementation of Policy 1.02.01 of the Open Space Element: "the county shall avoid, minimize, or mitigate impacts on views from view protection corridors." Reviews of development proposals incorporate a variety of site-specific considerations; this map is one component in staff's overall analysis. This map depicts view protection scores by road segment. See the Open Space Element Appendix for detail on the criteria and scoring system. The width of the View Protection Corridor line is for cartographic purposes to depict the type of roadway and does not represent land area.
