Please note, Boulder County offices will be closed to the public through April 20 to further decrease the rapid spread of COVID-19. We apologize for any inconvenience this may cause.

While county services and operations continue to function, either remotely, or in the case of law enforcement and road maintenance, in-person, many requests can be completed online. Please visit www.boco.org/Onlineservices to view the available online services.

Contact information for various county departments can be found here: www.boco.org/BC-Directory

Additionally, the Boulder County Commissioners will be moving to once-a-week virtual business meetings on Tuesdays, as opposed to twice a week. Commissioners’ agendas, minutes, and links to the updated virtual meetings can be found at the Open Meeting Portal: www.boco.org/BOCC-Agendas

Community Planning & Permitting Department Docket BCCP-20-0001: Geologic Hazard Mapping-Related Amendments. The Community Planning & Permitting Department is updating the Geology Element of the BCCP to incorporate improved geologic hazard and constraint mapping that represents the best available data on a range of geologic hazard features present in the county. The mapping was prepared with grant funds following the 2013 extreme rain event. That event changed the landscape, making some areas more susceptible to geologic hazards, and it increased awareness of the importance of understanding the geologic hazards and constraints present in the county. The proposed geologic hazard and constraint mapping will help ensure that properties are developed in a manner that addresses those risks. Minor revisions to the Geology Element of the BCCP also include updates to the definitions and policy sections of the element and a new guidelines table and map for providing further guidance when reviewing development on properties with potential geologic hazards.
