Why iNaturalist?

What are the Benefits?

- More Eyes and Ears to help wildlife staff know what's out there
- Public Engagement
- Fairly easy to use and incorporate into ongoing programs
- Brings wildlife watching into the digital age

iNaturalist Launch Event

April 6, 2017
at eTown in
Boulder

July: Butterfly Challenge Month!

Boulder County has the 4th highest biodiversity of butterfly species in the United States! The warm month of July is a great time to go on a butterfly safari - and document as many species as you can. Boulder County rises 9,000 vertical feet from the prairies to the summits - with many life zones packed into an absurdly small area. This is heaven for a butterfly watcher!

Wild Turkey
 2 photos

Observer: ahanlon
 Date: September 9, 2016

Seen along the road on the way to Heil Valley Ranch at the corral buildings. You can't see all of them but there were 7 or 8 turkeys!

Outreach and Future Plans

- County-wide project
- Part of Volunteer Naturalist training
- Incorporate iNat opportunities into more existing programs
- Engage different age groups
- Monthly photo emphasis
- Possible iNat clubs

Wildlife are
pretty
smart...

Don't let
them beat
you to the
punch!
