Report on the Financial Statements

We have audited the accompanying financial statements of Aspinwall, LLC, which comprise the balance sheets as of December 31, 2017 and 2016, and the related statements of operations and members' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Aspinwall, LLC as of December 31, 2017 and 2016, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedules of Maintenance and Operating, Utilities, Administrative, Insurance, and Interest Expenses are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 - Principal Business Activity and Significant Accounting Policies

Principal Business Activity, Risks, and Uncertainty

Aspinwall, LLC (Company) was formed June 16, 2011, as a limited liability company under the laws of the State of Colorado and shall continue in perpetual existence, unless dissolved or terminated at an earlier date. The Company was formed for the purpose to develop, construct, rehabilitate, own, maintain, and operate a 167 unit multi-family complex. The project is to include 95 scattered site rehabilitated units and 72 new construction units in Lafayette, Colorado. Substantially all of the Company's income is derived from the rental of its apartment units. The project purchased the scattered sites in August 2013 and began operations. Units were placed in service throughout 2014 as construction was completed.

The project has qualified and been allocated low-income housing tax credits pursuant to the Internal Revenue Code Section 42, which regulates the use of the complex as to occupant eligibility and unit gross rent, among other requirements. The project must meet the provisions of these regulations during each of 15 consecutive years in order to continue to qualify to receive the tax credits. Failure to comply with occupant eligibility and unit gross rent or to correct noncompliance within a specified time period could result in recapture of the previously taken low-income housing tax credits plus interest. Such potential noncompliance may require an adjustment to the contributed capital by the members. All units within this project are subject to rent restrictions and qualified tenant restrictions as required by the Low Income Housing Tax Credit Program.

Concentrations of Credit Risk

The Company maintains its cash accounts in various deposit accounts, the balances of which are periodically in excess of federally insured limits.

Receivables and Credit Policy

Accounts receivable are rents and charges currently due from residential tenants. Payments on accounts receivable are applied to specific months. Management reviews accounts receivable monthly and charges operations with those considered collectible.

Property and Equipment

The initial purchase of the property and equipment was recorded at fair value on the date of acquisition. As such, the property acquired is stated at fair value as of the acquisition date less accumulated depreciation. The Company accounted for its property acquisition by allocating the purchase price of the property to the property's assets based on management's estimates of their fair value. Techniques used to estimate the fair value include an appraisal of the property by a certified independent appraiser at the time of the acquisition. Costs incurred in connection with the acquisition are expensed.

Property and equipment is recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are charged to expense. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the accounts and the resultant gain or loss is reflected in income.

Depreciation is computed principally by the straight-line method over the following estimated useful lives:

Land improvements	20 years
Building and improvements	40 years
Equipment and furnishings	10 years
Geothermal equipment	5 years

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment at December 31, 2017 and 2016.

Tax Credit Fees

Tax credit fees are being amortized over a 15 year life using the straight-line method of amortization. Amortization is expected to be approximately \$7,500 for each of the next five years.

Debt Issuance Costs

Debt issuance costs are amortized over the period the related obligation is outstanding using the straight-line method, which is a reasonable estimate of the effective interest method. Debt issuance costs are included within long-term debt on the balance sheet. Amortization of debt issuance costs is included in interest expense in the accompanying financial statements.

Income Taxes

As a limited liability company, the Company's taxable income or loss is allocated to members in accordance with the operating agreement. Therefore, no provision for income taxes has been included in the financial statements.

The Company evaluates its tax positions that have been taken or are expected to be taken on income tax returns to determine if an accrual is necessary for uncertain tax positions. As of December 31, 2017 and 2016, the unrecognized tax benefit accrual was zero. The Company will recognize future accrued interest and penalties related to unrecognized tax benefits in income tax expense if incurred.

Rental Income

Housing units are rented under operating lease agreements with terms of one year or less. Rent income from tenants and rental assistance payments are recognized in the month in which it is earned rather than received. Tenant rent represents gross rent for all units in the project. Vacancy loss is recorded for any unrented units to arrive at net rental income.

Advertising and Marketing

Advertising and marketing costs are expensed as incurred.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Company has evaluated subsequent events through March 29, 2018, the date which the financial statements were available to be issued.
