Note:

- Approved backflow protection must be supplied on all fixtures and equipment with submerged inlets.

- Vacuum breakers must be installed on water inlet lines for dishwashing machines, garbage disposals, and hose bibs.

- Carbonated beverage machines require an ASSE 1022 dual check valve with a minimum 100 mesh screen and may require a drain.

- Continuous pressure backflow protection devices must be installed on water lines where a valve or shut off is located between the backflow device and the inlet to the fixture/equipment, such as hose reels and pitcher rinsers.

- Indirect drainage is required for all warewashing (3-compartment and dish machines) food preparation sinks, ice bins/machines, beverage machines, and walk-in refrigeration units.

- Items may not drain into buckets.
