Extraction Oil & Gas invasion of Heatherwood neighborhood violates HOA Covenants

Dear Esteemed County Commissioners,

Stop this before it starts. I have watched past Boulder County Commissioners decline to represent constituents in the face of CO State (or other) abuse of citizens rights. This can not be allowed. County Commissioners are elected by the voters, not the State. Therefore, it is the VOTERS whom you represent. Please keep this simple fact foremost in your minds.

Heatherwood HOA Covenants clearly state: "No oil drillings, oil development operations, oil refining, quarrying or mining operations of any kind shall be permitted upon or in any site, nor shall oil wells, tanks, tunnels, mineral excavations or shafts be permitted upon or in any site. "

The health risk for volatile benzene etc is unacceptable for men, women and children.

The noise and attendant stress is a violation of law and all reasonable exceptions. Open Space purchased with tax money is not Open Season for industrial use of ANY type. It is a Public Trust, not a corporate piggybank.

Forced Pooling is a violation of citizens rights of free speech and free association and will be challenged in court.

We pay tax on residential property, not industrial.

Boulder County Commissioners have a legal obligation to represent your constituents and fight a State Government undifferentiated from Industrial interests, to defend public safety, health and well-being in Boulder County. Flow mapping regulations are an issue for communities that have already been violated, after public health and safety have been abandoned by our representatives.

We WILL organize and nonviolently oppose the State of Colorado. IF abandoned by our elected representatives, we will challenge County Officials as well. Will you join us and demand that government assumes it's legitimate and legal responsibility to citizens?

THAT is our right!

Thank you,
Dexter Payne
Heatherwood resident
