Since

1989

The Multicultural Awards

have recognized people of color from Boulder County and have provided scholarships for college students with low income.

A beloved annual event, the awards celebrate people of color who have made significant contributions in the areas of Arts, Business, Community Service, Education, Health, Government, and Science and Technology.

We also honor youth and partners—people from the White/Anglo community who work to promote social justice around issues of race, as well as present scholarships to deserving students.

“It is important that people see there are people of color who are making significant contributions to Boulder County. Children of color need to know that there are people like them who are valued.”
