

Zoonotic Disease Report July 28 – August 3, 2019 (Week 31)

Executive Summary

- Statewide, 111 specimens have tested positive for rabies in 2019.
- 2019 Colorado rabies positive specimens: Skunk(84) Bat(22) Raccoon(2) Fox(1) Bovine(1) Dog(1)
- Boulder County has three positive rabies specimens to date, all are bats.
- Five bats were submitted for rabies testing in Boulder County this week; all tested negative.
- Thirty-six mosquito pools were tested for WNV; all tested negative.
- Mosquito traps this week were significantly higher than average with nuisance and vector species; of the 20,937 recorded mosquitoes, 52% were *Culex*.
- Eight mosquito pools have tested positive for WNV in Colorado this season: Larimer (4) Weld (2) La Plata (1) Pueblo (1). Considering the proximity of these positives, the risk of infection is certainly present in Boulder County.

Lab-confirmed, rabies positive animals by county, Colorado, Jan. 1 - July 25, 2019

*red denotes an increase since the previous week

County	Bat	Skunk	Other wildlife	Domestic	Total
Adams		1			1
Arapahoe		1			1

Mosquito Activity

West Nile virus (WNV) Vector Index

The vector index is a function of calculated infection rate, adjusted for *Culex* mosquito population size, within a given area. It is used to estimate human West Nile virus (WNV) transmission risk. A vector index of **0.75** or above in Boulder County is an indicator of high risk for WNV transmission to humans, and influences the Mosquito Control District’s adult mosquito emergency control measures. A vector index is calculated for [three monitoring zones in Boulder County](#).

VECTOR INDEX			
	ZONE 1	ZONE 2	ZONE 3
Season Week	Vector Index	Vector Index	Vector Index
Week 21	----	----	----
Week 22	----	----	----
Week 23	----	----	----
Week 24	0.00	0.00	0.00
Week 25	0.00	0.00	0.00
Week 26	0.00	0.00	0.00
Week 27	0.00	0.00	0.00
Week 28	0.00	0.00	0.00
Week 29	0.00	0.00	0.00
Week 30	0.00	0.00	0.00
Week 31	0.00	0.00	0.00

Animal Disease Activity

Each week, Boulder County and municipal Animal Control Units responds to animal complaints throughout the county. When deemed necessary, these specimens are sent to state laboratories for zoonotic disease testing.

Caveats

- Data are provided from the Colorado Department of Public Health and Environment (CDPHE) Zoonotic database and may not include samples submitted for testing prior to publishing of this report.
- Data reflect all samples submitted by Boulder County Public Health by other agencies or private veterinary practices.
- ‘Positive Vectors’ include only samples that have tested positive. Some samples submitted may be deemed untestable.
- ‘Submitted Vectors’ denoted with (*) indicate that at least one sample was untestable. Untestable samples may be treated as positive for follow-up protocol.
