

# Heartfelt Thank -You Notes and Artwork from 2018 Family-To-Family

My deepest gratitude could not express the thanks and love I feel! My family has been having a tough year and I could not have provided a Christmas for my children without you! Again thank you, thank you, thank you! God Bless and Happy Holidays!

To the wonderful people who helped our family - We haven't been able to do anything for Christmas for the past several years. Not even a pair of socks or something. Thanks to your generosity, our kids will have something to open this year. We are so grateful. Thank you so very much!!

I really appreciate your donations! I am 17 with a baby girl and it means so much that there are kind people willing to help!

Thank so much for this great gift for my family to help us with the things that we need. It's a very kind thing to do for families in need. If I would have money I would do the same. Thanks.

This gift is a blessing to me and my children. This gift has changed our lives and helped us to have hope during the holiday season. Thank you for helping us, sincerely, thank you.

Muchas gracias por darme la oportunidad de dar un regalo a mis hijos.

Thank you from the bottom of my heart! I honestly did not know how I was going to cover my two boy's Christmas this year, and with this amazing blessing I will be able to make their day special!! Blessings to you & yours.

Thank you so much for your gift. I am disabled with liver illness from a virus. This will help my boys enjoy Christmas greatly.

This gift card for my son's Christmas presents is the Christmas miracle that keeps the Christmas spirit alive. Without this I wouldn't be able to get my kiddo any presents. With my current situation and struggle, it is moments such as these that renew my faith in humanity. It is also these moments that reassure me that there is a light at the end of this dark tunnel. Thank you immensely & Happy Holidays.

I just lost my job of four years and this will help me buy Christmas presents for my seven year old.

THANK YOU!

You make smiles happen! Thank you for your gift. It helps more than you can know.
