Wear Your Mask Properly

Wearing Masks:
- Wash your hands before and after putting a facial covering in place.
- Do not touch the facial covering again until you remove it.
- Masks should be positioned so that there is no need to adjust or otherwise touch the face frequently.
- If your mask becomes soiled or hard to breathe through, you should remove and not wear again until laundered.
- Remove your mask to eat and drink and if it is still in good repair, you may continue to use it for the duration of your shift.

Masks Should Not:
- Have anything hanging off the facial covering that would create a food safety hazard.
- Have holes or tears.
- Masks should not be shared with others.

Thank you for your support.
