

2021 OWTS Permit and Fee Clarification for Minor Repair, Minor Over the Counter, and House Connect Permits

Minor Repair – Full Price \$1003

- New tank or tank replacement
- Full replacement or reconfiguration of effluent line—any repair or replacement of the section that connects to tank, manifold, or distribution box (d-box)
- New or additional building sewer line (i.e., for accessory structure) or a sewer line reconfiguration or relocation

Minor Over the Counter \$550

- Replacing existing d-box, automatic diverter valve (ADV), diverter valve, or existing sewer line section that connects to tank, house, or both (in same location as existing sewer line)
- Repairing or replacing section of effluent line in same spot as original effluent line and NOT in area connected to tank, manifold, or d-box

House Connect (HC) \$250

- For old permits that never got final approval because they never had a house connect inspection
- Approved onsite wastewater treatment system (OWTS) – House destroyed (fire/flood) and connecting new house built in same location to existing OWTS (case-by-case)

NO OWTS PERMIT REQUIRED

- Replacing a SECTION of existing sewer line, but not part that connects to tank or house
- Risers
- Baffles
- Inlet/outlet tees
- Pump replacement
