## Acknowledgements

Boulder County Parks & Open Space would like to thank the Volunteer Ranger Corps, Boulder County's Senior Tax Work-Off Program participants, and staff members, whose many hours of survey collection and data entry made this study a success.

Additionally, the department would like to thank the visitors to Boulder County Parks & Open Space park properties who took the time to complete the survey.

## Executive Summary

*Every five years, Boulder County Parks & Open Space (BCPOS) conducts a system-wide demographics and satisfaction survey.*

These Five Year Studies (5YS) complement the regular annual studies and look at long-term trends in visitor demographics, preferences, attitudes, and behaviors.

Because of the COVID-19 pandemic, the study was delayed a year, and surveys were collected during the spring and summer of 2021. Trained BCPOS staff and volunteers collected 2,261 surveys (response rate 72%) at 15 BCPOS park properties. Surveys for BCPOS regional trails and neighborhood trails will be collected in the spring and summer of 2022.

The key findings from this survey indicate that the average visitor to BCPOS park properties:

- ▶ Lives in Boulder County (76%) and has lived there for 10 or more years (46%)
- ▶ Likely lives in Boulder (24%) or Longmont (20%)
- ▶ Is between 25-44 years-old (39%) or 45-64 years-old (36%)
- ▶ Self-identifies as white (93%)
- ▶ Traveled to a BCPOS park by car (89%)

Visitors to BCPOS park properties tended to visit either with family (44%) or by themselves (33%). If it was not their first time visiting a park (31%), they generally visited the trails frequently (44% visited monthly, weekly, or more than once a week).

The visitor was primarily hiking (55%) or biking (21%). Moreover, the average visitor did not experience conflict with other visitors on the trail (95%), and three out of four visitors did not feel crowded while at the trailhead or on the trail itself. On a scale of 1 (poor) to 10 (excellent), visitors rated BCPOS parks an average of 9, which is a slight increase from 2015's 5YS rating of 8.7.

Regarding social preferences, visitors reported they support or strongly support multi-use trails (63%). Whereas views on trails for a single activity, and specific days for different activities, were more mixed at 54% and 41% support or strongly support, respectively. In reference to the park they were visiting, 69% of visitors described the number of trail miles as being about right. Lastly, 47% of visitors reported they prefer trails that are wide enough for two people side-by-side, and 29% of visitors prefer trails wide enough for three people side-by-side. These data and more are presented in this report.

# Introduction

## Purpose

Every five years we conduct a system-wide survey. The objective is to collect a representative sample of park visitors to look at long-term trends and better understand:

- Demographics (e.g., place of residency, age, ethnicity)
- Visitation patterns (e.g., visitor activities, mode of transportation, frequency of visitation)
- Satisfaction with park experience and management practices
- Conflict and crowding

## Background

Every year, BCPOS conducts ongoing observation studies to determine the estimated number of visits to major parks, the activities in which visitors participate, and where and when they visit parks and trails. However, there are no records of visitors' demographic information or opinions in these annual studies. To gather more specific information about park visitors, BCPOS has conducted a complementary study every five years since 1990.

Research shows that using a mixed-methods approach, with both qualitative and quantitative questions, is the most comprehensive way to analyze visitor opinions (Creswell 2002, DeLeeuw 2005). Visitors have different preferences, motivations, attitudes, and values toward the outdoors (Scott & Shafer, 2001). Visitors to outdoor recreation areas place value on trails and other activities as they relate to their quality of life (Jacob and Schreyer 1980, Manning 1999, Watson 2001).

Questions about visitor demographics can provide information about how BCPOS visitors reflect the greater community. The goal of the BCPOS Cultural Responsiveness and Inclusion Strategic Plan (CRISP) is to add a cultural responsiveness and inclusion lens to all that we do in our engagement with the public. Over time, demographic information compared to U.S. Census data can serve as one indicator of the effectiveness of efforts and projects to improve access to underserved communities and reduce the inequity gap (Flores et al., 2018).

In 2003, BCPOS conducted a conflict study where conflict was defined by Jacob & Schreyer (1980) as “goal interference attributed to another person’s behavior,” where the “goal” is the visitor’s main reason for recreating. Current information about conflict is used to evaluate visitor satisfaction and guide appropriate management decisions. Satisfaction can be based on how closely visitor expectations match outcomes (Manning, 2001).

Related to conflict, perceived crowding in parks is a subjective evaluation of visitor density (Heberlein and Vaske, 1977). By evaluating conflict and crowding, staff can implement information and education efforts to change unwanted or unsustainable behavior on trails (Schneider, 2000). Questions related to designating activities for different trails (multiple-use, specific days for different activities, and trails for a single activity) and trail width provide information about visitor opposition or support for different trail management methods.

## Methods

### Survey Design

The questionnaire was designed for each respondent to fill out individually. Questions were modeled to remain consistent with previous surveys, to investigate current issues in BCPOS, and to accommodate staff requests for specific data.

### Data Collection and Sampling

Historically, the study has been conducted between May and September. In 2021, we collected 2,261 surveys between May 28 and September 30. Surveys were conducted by 14 Volunteer Ranger Corps volunteers, seven staff, and one Senior Property Tax Work-Off participant. Each surveyor attended a formal training session and wore a BCPOS hat and/or nametag for identification during survey shifts.

These were exit surveys. Visitors were contacted at predetermined locations at a property trailhead, parking lot, or inside an area without a primary access point. Parks with multiple designated trailheads were surveyed at each trailhead (e.g., Hall Ranch and Walker Ranch). To collect a random sample, every third visitor was asked to participate in the survey on busy days, whereas an attempt to survey all visitors was made on slower days.

Survey shifts were two hours long, conducted in the morning (8 a.m. to 11:59 a.m.), afternoon (12 p.m. to 3:59 p.m.), and evening (4 p.m. to 7:59 p.m.). At every park, survey collection was attempted during all three time-periods and on both weekdays and weekends. If a survey shift was canceled, it was re-scheduled for the same time on the next available weekday or weekend day.

Accurate representation of the properties' different visitation patterns required that we collected larger samples at high-visitation locations (175 attempted surveys), moderate samples at medium-visitation locations (150 attempted surveys) and smaller samples at low-visitation locations (100 attempted surveys). Table 1 shows the sample sizes at each of the locations surveyed.

Table 1: Sample Size by Park

Park	Sample Size

Mud Lake	210
Pella Crossing <sup>1</sup>	180
Ron Stewart Preserve at Rabbit Mountain	175
Walden Ponds Wildlife Habitat	107
Walker Ranch	213
<b>Total</b>	<b>2,261</b>
<b>Margin of Error<sup>3</sup></b>	<b>+/-2%</b>

All the BCPOS properties listed in Table 1 are categorized as parks. A sample of 2,261 surveys gave us a +/-2% estimated margin of error with a confidence level of 95%.

<sup>1</sup> Anne U. White and Pella Crossing were not included in the 2015 survey because they were closed as a result of the 2013 flood damage.

<sup>2</sup> Because of the 2020 Cal-Wood Fire, the southern portion of Heil Valley Ranch was closed for restoration, but the northern portion remained accessible to visitors. Because of this closure, surveys were conducted only at the Picture Rock Trailhead, and Heil Valley Ranch data from 2015 will not be directly comparable to 2021.

<sup>3</sup> Some questions may have smaller sample sizes and, therefore, have a larger margin of error. The margin of error for each individual property is included in Appendix B (p. 49).

In addition to the 15 BCPOS park properties listed in Table 1, six locations categorized as regional or neighborhood trails were not surveyed in 2021 (Boulder Canyon Trail, Coal Creek Trail, Rock Creek Trail, LoBo Trail, Niwot Trails, and Twin Lakes).

Previously, the 5YS has included both BCPOS parks (e.g., Caribou Ranch, Ron Stewart Preserve at Rabbit Mountain), as well as regional or neighborhood trails (e.g., Boulder Canyon Trail, LoBo Trail); but for this study, parks and regional trails are surveyed separately. This report shows only results from BCPOS parks collected during the spring and summer of 2021. Surveys for BCPOS regional trails and neighborhood trails will be collected in the spring and summer of 2022.

The decision to separate out regional and neighborhood trails was made because visitation trends and visitor demographics differ significantly from parks. Additionally, regional and neighborhood trails have numerous entry and exit points and are better suited for an intercept survey rather than an exit survey. Surveying these trails separately will allow us to design the survey to address questions unique to regional and neighborhood trails.

## **Rounding Results**

For some questions, respondents were asked to “select all that apply.” When the total exceeds 100% in a graph or table for a multiple-choice question, it is because some respondents selected multiple categories. Answers for all questions were rounded to the nearest whole number. Because of rounding, some multiple-choice questions in which only one answer could be selected may not total exactly 100%.

# Results

## Results<sup>4</sup>

Survey staff and volunteers collected 2,294 surveys out of 3,169 attempted surveys, which resulted in an overall response rate of 72% (Table 2). Of the 2,294 surveys collected, 2,261 were completed, deemed valid, and used in the study. A total of 438 hours was spent across 219 survey sessions in the parks. As such, staff collected about 5.2 surveys per hour.

Table 2: Survey Response Rates

	2021	2015	2010	2005	2000	1995
<b>Surveys Completed<sup>5</sup></b>	2,261	2,275	2,388	1,812	641 <sup>6</sup>	647
<b>Response Rate</b>	72%	63%	70%	58%	88%	88%

For every attempted survey that a visitor declined, staff and volunteers recorded the apparent or communicated reason for refusal of the survey. Table 3 shows the reasons given for refusing to complete the survey by visitor activity.

Table 3: Top Reasons for Refusal

	Hikers	Bikers	Runners	Other Activity	Total	% of refusals
	# of respondents				Total	% of refusals
<b>Not interested</b>	182	29	9	44	264	30%
<b>Did not stop</b>	74	131	39	15	259	30%
<b>No time</b>	117	42	16	5	180	21%
<b>Other</b>	141	9	17	5	172	20%
<b>Total</b>	514	211	81	69	875	100%
<b>% of Total</b>	59%	24%	9%	8%		

The most common “other” reasons for refusal, in order of frequency, include:

- The visitor was too hot, hungry, or dehydrated
- The visitor did not have their glasses
- The visitor was on the phone or wearing headphones

<sup>4</sup> Percentages were rounded to the closest whole number, so totals for every data table may not add up to 100 percent.

<sup>5</sup> In 2005, 2010, 2015, and 2021 respondents completed questionnaires instead of interviews as in 1995 and 2000.

<sup>6</sup> Multiple visitors in small groups were interviewed as one; the total number of individuals here was 1,414.

Table 4: Refusal by Property

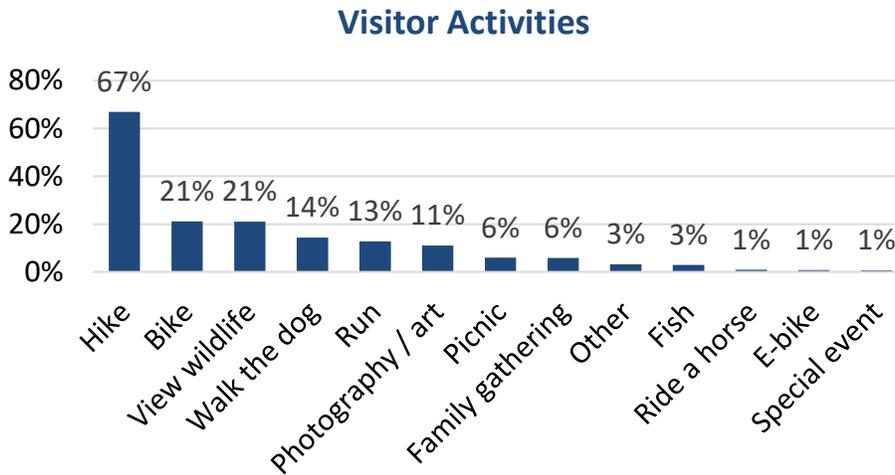

Park	Total # of Survey Shifts	Total # of Refusals	Rate of Refusal
Anne U. White Trail	10	50	5
Bald Mountain Scenic Area	14	15	1.1
Betasso Preserve	15	97	6.5
Caribou Ranch	13	52	4
Carolyn Holmberg Preserve at Rock Creek Farm	15	81	5.4
Coalton Trailhead	13	62	4.8
Hall Ranch	16	67	4.2
Heil Valley Ranch Picture Rock Trailhead	10	55	5.5
Lagerman Agricultural Preserve	19	39	2.1
Legion Park	14	47	3.4
Mud Lake	14	59	4.2
Pella Crossing	13	70	5.4
Ron Stewart Preserve at Rabbit Mountain	15	65	4.3
Walden Ponds Wildlife Habitat	18	41	2.3
Walker Ranch	20	75	3.8
<b>Total</b>	<b>219</b>	<b>875</b>	<b>3.9</b>

The property with the greatest rate of refusal was Betasso Preserve with 6.5 visitors refusing to take the survey for every survey shift conducted. The park with the lowest refusal rate was Bald Mountain with only 1.1 visitors refusing to take the survey per survey shift on average.

## Visitor Activities

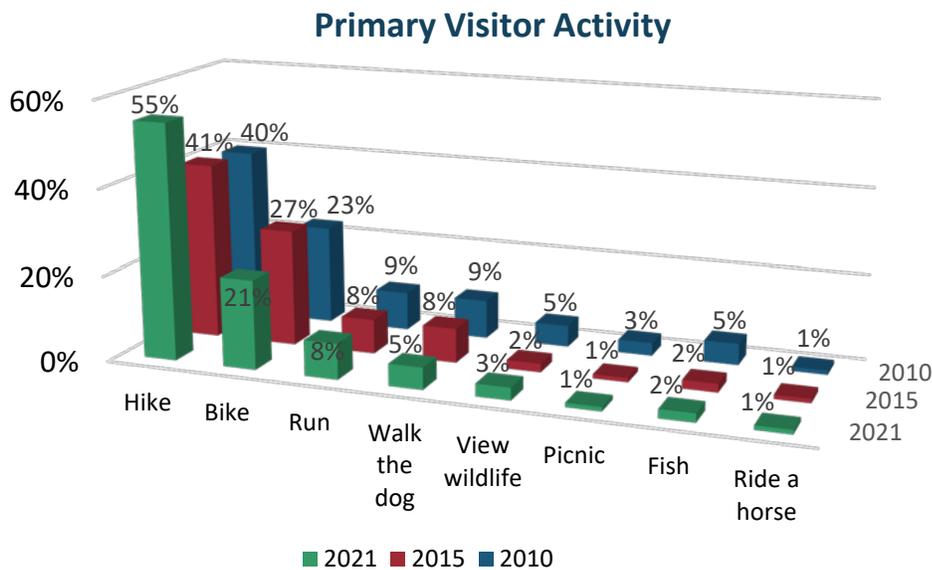

Which activities did you participate in today at this park?

Figure 1: All Visitor Activities

Above, CIRCLE your primary activity for today.<sup>7</sup>

Figure 2: Primary Visitor Activity<sup>8</sup>

<sup>7</sup> Results from 2021 are not directly comparable to previous survey results since neighborhood and regional trails were not surveyed.

<sup>8</sup> Other responses, including photography/art, e-bike, family gathering, and special event, are not shown because of low response rates and because some of those categories are not comparable to 2015 and 2010.

In 2010, respondents were asked to report only their primary activity to better understand what the majority of visitors were doing at any given property. In 2015, in addition to asking respondents to report their primary activity, visitors were also asked to report all activities that they participated in at the property that day, which was then continued for 2021. The reason for reintroducing this question was to determine all activities visitors are doing at any given property.

The results from 2021 indicate that visitors’ primary activity essentially remained consistent with previous studies with the majority of visitors hiking (55%), biking (21%), running (8%), and walking the dog (5%).

In reference to all reported activities undertaken that day, there is a 12% increase in visitors that reported participating in hiking and, conversely, an 11% decrease in visitors who reported participating in biking compared to results from 2015. Moreover, the percentage of visitors that reported viewing wildlife as an activity increased by 5%, from 16% to 21%.

Additionally, the most common responses for the “other” category of activities include relaxing, meditating, leaf peeping, viewing wildflowers, taking in the views, climbing, reading, and kayaking/paddle boarding/boating/canoeing.

### Mode of Transportation

*How did you get to this park today?*

Table 5: Mode of Transportation

Mode of Transport	2021	2015
Vehicle	89%	89%
Bike	7%	8%
Hike/Walk	3%	2%
Run	2%	1%

In 2015, both parks and regional/neighborhood trails were surveyed. Table 5 compares the mode of transportation results for parks in 2015 and 2021. Surveys at neighborhood/regional trails will be conducted in 2022. In 2015, the percentage of respondents that reported using alternative transportation (biking, hiking, and running) was 53% on neighborhood/regional trails compared to 11% at parks.

The trailheads with the greatest percentage of respondents reporting driving include Ron Stewart Preserve at Rabbit Mountain (99%), Mud Lake (99%) and Walker Ranch Loop Trailhead (98%). The trailheads with the greatest percentage of visitors that reported biking, hiking/walking, or running include Carolyn Holmberg Preserve at Rock Creek Farm (58%), Coalton (37%), and Lagerman Agricultural Preserve (17%).

The second part of this question asked respondents who drove a vehicle to state how many people, including themselves, rode in the car. The results showed that 41% of vehicles that drove to BCPOS properties had two people, 39% of vehicles contained one person, and 20% of vehicles had three or more occupants. On average, two people occupied each vehicle driven to BCPOS parks in 2021.

## Parking

*How easy or difficult was it to find a parking spot?*

Table 6: Parking

	2021	Weekends (Saturday - Sunday)	Weekdays (Monday - Friday)
<b>Very Easy</b>	64%	58%	73%
<b>Easy</b>	27%	30%	22%
<b>Neutral</b>	7%	8%	5%
<b>Difficult</b>	2%	3%	<1%
<b>Very Difficult</b>	<1%	1%	<1%

For visitors that drove to the park, the vehicle driver was asked to answer how easy or difficult it was to find a parking spot. Because this study was an exit survey at trailheads, visitors that could not find parking and left the property are not represented. Of the visitors that reported parking as difficult or very difficult, 92% were weekend visitors, and only 8% visited on weekdays. And two out of three visitors that reported parking as difficult or very difficult were surveyed during a morning shift.

Vehicle drivers were also asked to report where they parked, and 96% reported parking in the trailhead, and 4% parked on the road. Two out of three visitors who reported parking on the road visited parks on weekends. Only 9% of visitors who parked on the road outside of the trailhead also reported that parking was difficult or very difficult (5 out of 55 responses).

## Social Group

*Which of the following best describes who traveled here with you today?*

Table 7: Respondents' Social Group

Social Group	2021	2015	2010	2005	2000	1995
<b>Just me</b>	33%	34%	37%	38%	22%	17%
<b>Friends</b>	25%	26%	22%	25%	30%	33%
<b>Family</b>	44%	41%	38%	34%	47%	49%
<b>Organized group</b>	1%	2%	2%	2%	1%	1%

The only difference of note between 2015 and 2021 is that visitation with family increased by 3%, from 41% to 44%. This increase in familial visitation follows an upward trend that has been increasing since 2005, when visiting parks with family members was at 34%.

## Frequency of Visits

*In the past year, how often have you visited this park?*

Table 8: Frequency of Visitation

	2021	2015	2010	2005	2000 <sup>9</sup>	1995 <sup>9</sup>
<b>First time here</b>	31%	28%	24%	23%	23%	43%
<b>Once or twice in the past year</b>	18%	13%	17%	15%	18%	8%
<b>About once a season</b>	7%	6%	6%	5%	--	--
<b>About once a month</b>	18%	19%	20%	19%	7%	5%
<b>About once a week</b>	14%	14%	15%	14%	18%	20%
<b>More than once a week</b>	13%	20%	17%	23%	25%	15%

<sup>9</sup> In 1995 and 2000, the question was posed for visit frequency in the “past six months,” and the list of responses was worded differently.

The frequency of visitors that report recreating at BCPOS frequently (monthly, weekly, or more than once a week) is 45%.

From 2015 to 2021, there was a 7% decrease in the frequency of visitors who reported visiting a BCPOS property more than once a week. In addition, there was a 5% increase in visitors who reported visiting a park once or twice in the past year. Since 2005, when the wording of the question was updated, the percentage of first-time visitors to BCPOS properties has continued to increase, with now almost one-third of visitors indicating it is their first time at the property in the past year.

## Park Rating

*How would you rate this park overall on a scale of 1 to 10, with 1 being poor and 10 being excellent?*

Table 9: Park Rating

	2021	2015	2010	2005	2000	1995
<b>Average Overall Rating</b>	9.0	8.7	8.7	8.4	8.3	8.0

Barring the static 8.7 rating in 2010 and 2015, the system-wide, average overall rating of the parks has continually increased from 8 in the year 1995 to 9.0 in 2021. Ratings for each individual park can be found in the Individual Property Analysis (p. 27-42).

The five highest rated parks are Bald Mountain Scenic Area (9.6), Anne U. White (9.6), Caribou Ranch (9.4), Walker Ranch (9.3), and Betasso Preserve (9.1). The five lowest rated parks are Legion Park (8.2), Walden Ponds Wildlife Habitat (8.6), Lagerman Agricultural Preserve (8.6), Carolyn Holmberg Preserve at Rock Creek Farm (8.7), and Coalton Trailhead (8.9).

Visitors were then asked why they rated the park the way they did, the top results of which are displayed below in Table 10.

Table 10: Top Three Reasons Cited for Park Rating Across All BCPOS Properties

2021	2015	2010	2005
Aesthetic beauty, scenery, views, specific natural feature (e.g., wildlife, creek)	Aesthetic beauty, scenery, views	Aesthetic beauty, scenery, views	Natural beauty e.g., “gorgeous”
Good trails/hike/park	Good/great hike/trail/park	Well maintained, clean	Good/great/excellent trail
Well maintained, clean	Well maintained, clean	Good/great hike/trail/park	Scenic views

See the Individual Property Analysis (p.27-42) for a list of the top cited qualitative reasons for each property’s numeric rating.

## Suggested Improvements

*Name one improvement that would make your visit to this park more enjoyable.*

Visitors were asked to write one thing that would improve their visit. A total of 76% of visitors (1,709 people) listed a response to the question. All answers were coded into categories of similar responses. Thirty percent of visitors (515 people) that responded wrote nothing or “no improvements.”

Some visitors provided more than one suggested improvement in their response. Since this question was regarding specific properties and trails, the results are not closely comparable. The top ten most common responses are listed by general categories in Table 11.

See Appendix C (p. 50) for a complete list of the top five suggested improvements for each property surveyed.

Table 11: Percentage of comments offered

	2021	2015	2010	2005
<b>Comments</b>	53%	55%	56%	55%
<b>Blank</b>	24%	28%	27%	32%
<b>None or good job</b>	23%	17%	17%	13%

Table 12: Top 10 Most Common Suggested Improvements

	# of comments
<b>Trailhead or trail maintenance</b> including mowing, weeds, smoother trails, technical features, smoother roads, drainage, etc.	159
<b>More or longer trails</b>	148
<b>Add more parking</b>	110
<b>Improve or add signage</b> including adding mile markers, maps, wayfinding signs, educational information, and regulatory signs	110
<b>Add shade or more trees</b>	101
<b>Better bathrooms</b>	101
<b>Provide a water fountain</b>	94
<b>More benches or picnic tables</b>	84
<b>Bike-only days or trails</b>	64
<b>Fewer or no bikes</b>	42

## Conflicts

*Sometimes, visitors interfere with one another’s goals on the trail, causing unpleasant experiences. This is generally referred to as “conflict.” Did you experience conflict at this park today?*

Table 13: Conflict Today

	2021	2015 <sup>10</sup>	2010	2005	2003
<b>No</b>	95%	94%	92%	97%	98%
<b>Yes</b>	3%	5%	7%	3%	2%
<b>Not Sure</b>	2%	2%	1%	<1%	--

In 2005, questions about conflict were open-ended and the most common conflicts that visitors reported were coded into categories. Those categories were used in 2010 when the conflict question included a list of commonly reported conflicts and allowed visitors to select from those choices. As a result, the 2010 results had rates of conflict that were significantly higher than in previous studies. Visitors’ ability to read through the possible conflicts and contemplate whether they experienced them may have inflated the percentage of conflicts reported by visitors. In 2015, an open-ended conflict question was reintroduced to minimize this potential bias.

<sup>10</sup> In 2005, 2010, and 2015, respondents that left the question blank are included as not reporting conflict at the park today.

The overall percentage of visitor-reported conflict has been decreasing since 2010, when conflict was experienced among 7% of visitors compared to only 3% in 2021. For this study, the properties that recorded the highest rate of conflict were Carolyn Holmberg Preserve (7%), Betasso Preserve (6%), and Hall Ranch (5%). Alternatively, the parks with the lowest incidence of conflict—at 0%—were Caribou Ranch, Lagerman Agricultural Preserve, and Legion Park.

Out of 2,241 respondents who answered this question, only 60 respondents reported conflict. If the visitor reported that they did experience conflict during their visit to the park that day, they were then asked to describe the conflict in an open-ended format, with the top responses displayed in Table 14. See Appendix D (p. 53) for a complete list of conflicts for each property surveyed.

Table 14: Top Conflicts Reported That Day

2021	2015	2010
Right of way or trail-sharing issues	Biker’s speed	Dogs off-leash
Bad dog behavior	Inconvenience and/or discourtesy while sharing the trail	Bikers not yielding
Bikers’ speed or communication	Bikers not yielding	Dog droppings
Bikers not yielding	Crowded	Horse droppings
Crowded	Dogs off-leash	Biker’s communication

A more detailed explanation of each aforementioned type of conflict is as follows:

**1. “Right of way or trail-sharing issues”**

- Confusion or indifference as to who has the right of way
- Visitors taking up too much of trail
- Recreating too close to others

**2. “Bad dog behavior”**

- Dogs off-leash
- Dogs running up to other visitors or being in their way
- Aggressive dogs

**3. “Bikers’ speed or communication”**

- Bikers not announcing their presence when passing other trail users (e.g., saying “on your left”)
- Bikers going too fast

**4. “Bikers not yielding”**

- Bicycle riders not yielding the right-of-way to other trail users
- Downhill bikers not yielding to uphill trail users
- Bikers being aggressive

**5. “Crowded”**

- General trail traffic
- The presence of too many other trail users
- The presence of large groups of people

## Number of Trail Miles

*Thinking only of this park, how would you describe the number of trail miles here, on a scale of 1 to 5, with 1 being not enough and 5 being too many?*

Table 15: Number of Trail Miles at This Park

	2021	2015	2010	2005 <sup>11</sup>
<b>1: Not Enough</b>	8%	10%	12%	27%
<b>2</b>	15%	15%	17%	--
<b>3: About Right</b>	69%	63%	60%	41%
<b>4</b>	3%	4%	2%	--
<b>5: Too Many</b>	<1%	0%	1%	1%
<b>Not Sure</b>	5%	6%	--	15%
<b>Blank</b>	1%	2%	8%	16%

Up 7% from 2015, 69% of visitors believed the number of trail miles that existed at the park they visited was about right. Bikers were more likely than hikers or runners to report that there are not enough trails (41% selected 1 or 2). Only 17% of hikers reported that there were not enough trails and 28% of runners.

Legion Park (34%), Heil Valley Ranch Picture Rock (33%), and Betasso Preserve (32%) had the highest overall percentage of respondents indicate that there are not enough trail miles (selected 1 or 2). With the addition of Legion Park, these results are consistent with those from 2015. Walker Ranch (80%), Pella Crossing (79%), and Lagerman Agricultural Preserve (76%) were the three properties that had the highest overall percentage of respondents indicate that there are about the right number of trails (selected 3).

<sup>11</sup> In 2005, the question only included a 3-point scale including not enough, about right, and too many trails.

## Crowding Perception

*While visiting this park today, did you feel crowded?*

Table 16: Crowding Perception

	At the Trailhead 2021	On the Trail 2021	2015	2010	2005
<b>Not at all Crowded</b>	74%	75%	70%	67%	65%
<b>Slightly Crowded</b>	16%	16%	17%	18%	23%
<b>Somewhat Crowded</b>	5%	4%	7%	7%	10%
<b>Moderately Crowded</b>	3%	3%	3%	1%	1%
<b>Very Crowded</b>	1%	<1%	1%	1%	<1%
<b>Not Sure</b>	<1%	1%	--	--	--

Table 17: Crowding Perception on Weekends versus Weekdays

	Weekends (Saturday - Sunday)		Weekdays (Monday - Friday)	
	At the trailhead	On the trail	At the trailhead	On the trail
<b>Not at all Crowded</b>	68%	69%	82%	85%
<b>Slightly Crowded</b>	19%	20%	12%	11%
<b>Somewhat Crowded</b>	7%	6%	3%	2%
<b>Moderately Crowded</b>	4%	4%	1%	1%
<b>Very Crowded</b>	2%	1%	1%	<1%
<b>Not Sure</b>	<1%	1%	1%	1%

Overall, a total of 4% of visitors reported feeling moderately crowded or very crowded both on the trail and at the trailhead. The properties with the highest rating for crowding, where visitors felt somewhat to very crowded at the trailhead, were Betasso Preserve (24%), Heil Valley Ranch Picture Rock Trailhead (16%), and Mud Lake (16%). The properties with the highest average rating for crowding, where visitors felt somewhat to very crowded on the trail, were Betasso Preserve (23%), Anne U White (16%), and Hall Ranch (12%). On weekends, 35% of visitors to Betasso Preserve felt crowded at the trailhead and on the trail. At Mud Lake on weekends, 24% of visitors felt crowded at the trailhead, but only 12% felt crowded out on the trail. And at Anne U. White and Heil Valley Ranch Picture Rock Trailhead on the weekend, visitors felt more crowded on the trail (24% of visitors at both locations) than at the trailhead (19% of visitors at both locations).

## Trail Activity Designations

*Boulder County Parks & Open Space designates activities for different trails. Please indicate your level of support for the three types of trails listed.*

Table 18: Trail Designations

		Strongly Oppose	Oppose	Neutral	Support	Strongly Support	Not Sure
<b>Multi-use trails</b> where bikers, hikers, and horses use the same trails	2021	4%	9%	22%	31%	32%	2%
	2015	3%	6%	20%	29%	40%	2%
<b>Specific days for different activities</b> Saturday for hiking, Sunday for biking, etc.	2021	12%	19%	24%	20%	21%	4%
	2015	13%	17%	23%	19%	23%	2%
<b>Trails for a single activity</b> e.g., hiking only	2021	8%	12%	25%	27%	27%	3%
	2015	4%	7%	23%	30%	35%	6%

The majority of visitors support or strongly support designating trails as multi-use trailhead (63%), and a smaller majority also support trails for a single activity (54%). Hikers are more likely than bikers or runners to oppose or strongly oppose multi-use trails. And likewise, bikers and runners are more likely than hikers to oppose trails for a single activity.

## Trail Width Preference

*When you visit an open space or park, what is your preference for the width of a trail?*

Table 19: Trail Width Preference

Trail Width	2021	2015 <sup>12</sup>
<b>Wide enough for three people side-by-side</b>	29%	21%
<b>Wide enough for two people side-by-side</b>	47%	46%
<b>Wide enough for only one person at a time, often called “singletrack”</b>	19%	27%
<b>Not sure</b>	5%	6%

<sup>12</sup> These results are from the 2015 survey but excluding the regional and neighborhood trails that were not surveyed in 2021.

Overall, visitors continue to prefer trails that are wide enough for two people (47%) or three people (29%) to walk side-by-side. In 2021, there was an 8% decrease in visitors that prefer “singletrack” and an 8% increase in visitors that prefer trails wide enough for three people to walk side-by-side.

Table 20: Trail Width Preference by Top 4 Primary Visitor Activities

Trail Width	Hike	Bike	Run	Walk the Dog
Wide enough for three people side-by-side	27%	14%	35%	53%
Wide enough for two people side-by-side	54%	34%	43%	35%
Wide enough for only one person at a time, often called “singletrack”	13%	50%	20%	8%
Not sure	6%	3%	3%	5%

The visitor’s preference for trail width varies depending on the visitor activity. Bikers still most often prefer “singletrack” trails (50%), but that is an 8% decrease from 2015. The percentage of hikers, runners, and dog walkers indicating they prefer trails wide enough for three people to walk side-by-side also increased significantly from the 2015 survey, where only 15% of hikers, 23% of runners, and 22% of dog walkers preferred trails that wide.

## Respondent Age

### What is your age?

Table 21: Respondent Age versus Census Data

	2021 BCPOS Surveyed Visitors	Boulder County Census
16-19	2%	8% <sup>13</sup>
20-24	5%	10%
25-34	19%	14%
35-44	20%	12%
45-54	18%	13%
55-64	18%	13%
65 and older	18%	15%

<sup>13</sup> The 2019 U.S. Census American Community Survey 1-Year Estimates used an age range of 15-19 years old, in comparison to Boulder County’s 5YS that used 16-19 years old as an age range.

In 2021, visitors were asked to report their age. In 2010 and 2015, visitors were asked to provide their age and to record the number of people in their group who fell into the various age groups. That resulted in a more accurate representation of visitors who are legally too young to complete the survey (under 16 years old), but it was difficult to minimize overcounting visitors in other age categories when more than one person in each group was completing the survey. Since the survey is designed to be taken individually and not by one person per group, in 2021 it was decided to ask visitors to report only their age. In 2015, it was found that 10% of visitors were under the age of 10.

15 or more years	47%	45%				

Twenty-four percent of visitors reported that they do not live in Boulder County, which is an increase of 5% from the 2015 survey, and 11% (257 respondents) left the question blank.

## Reported Race & Ethnicity

*Are you of Hispanic, Latino/a/x, or Spanish origin?*

Table 24: Hispanic Origin

Hispanic, Latino/a/x, or Spanish?	6%	5%	3%	2%	7%	6%
No	94%	--	--	--	--	--

In 2021, two questions were asked about race and ethnicity in the Five Year Study to match the wording of the questions used in the U.S. Census so that it is possible to compare the representation of different ethnic groups in the parks with Boulder County’s population overall.

<sup>18</sup> Studies conducted from 1995 to 2010, asked Boulder County residents if they had resided in the county for 10 or more years, unlike studies from 2021 and 2015 that allowed for answers of either 10-14 years or 15 years or more.

Caribou Ranch	N/A
Caribou Ranch	Thank you! God bless our open space sanctuaries! It wasn't an issue on this trail, but on most trails in the county, dog owners often leave their poops bags. So, so unfortunate.
Caribou Ranch	As a past mtn biker it was really nice to have a hiker only trail without bikes whizzing past. Met a couple horses and had no conflicts. Nice quiet place, will return
Caribou Ranch	It was nice not to have "conflicts" with bikers on the trails here at Caribou Ranch.

Lagerman Agricultural Preserve	Keep up the good work!
Lagerman Agricultural Preserve	Thank you for the Beautiful Parks!
Lagerman Agricultural Preserve	Keep up the good work!
Lagerman Agricultural Preserve	Thank you for providing so many parks and so much open space!
Lagerman Agricultural Preserve	The open space program is great!
Lagerman Agricultural Preserve	Thank-you!
Lagerman Agricultural Preserve	We moved to Boulder County because of the open space --- love it and appreciate it and those who care for it every day.
Lagerman Agricultural Preserve	Love all the trails
Lagerman Agricultural Preserve	Beautiful day; Saw some smiling faces; Baby cows. I love Lagerman Just the way it is. <3.
Lagerman Agricultural Preserve	Thank you!! :)
Lagerman Agricultural Preserve	I run this trail almost every day. Keep up the good work!
Lagerman Agricultural Preserve	This place is paradise <3
Lagerman Agricultural Preserve	Love Pella Crossing.
Lagerman Agricultural Preserve	Really a super pl to bike and hike!! A variety of trails in length AND a LAKE :).
Lagerman Agricultural Preserve	Excellent, clean open space and not too crowded
Lagerman Agricultural Preserve	This is my FAVORITE park in Boulder CO. Great work! Thank you! P.S. prairie dogs are awesome :)
Legion Park	No
Legion Park	Love this place!
Legion Park	:)
Legion Park	Good stuff
Legion Park	<i>Love the views and quiet!</i>
Legion Park	Have a great Day
Legion Park	No.
Legion Park	This is a great spot to get away from my office at lunch with a great view of the Flatirons (when the smoke isn't getting in the way).
Legion Park	<i>Love Heil Valley Ranch. (I also love the osprey cams!)</i>

Legion Park	Lovely Lady volunteer, Cheryl
Mud Lake	Thank you for all you do
Mud Lake	<i>Very well maintained!</i>
Mud Lake	My wife, who I rode here with today filled this out for me, but these are my answers. :)
Mud Lake	Caribou Ranch (along with parking at Mud Lake) is an excellent example of how horses and hikers can quietly enjoy nature and each other when other users (bikes, vehicles) are not also on trail. Boulder County Horse Association played a big role, historically. Would Like to see this model elsewhere. Thanks! This was Labor Day and we still found nice space, quiet nature.
Mud Lake	Good work!

Mud Lake	We love mud lake. Living about 3 miles away we come all the time and hope to see [it] stay the same or similar for our kids
Mud Lake	Thank you --- we come here every year and love it!
Mud Lake	N/A
Mud Lake	Love Boulder County Parks! Thank you for making Boulder the best place to live.
Mud Lake	Parks and Open Space in general is a blessing that I cherish in Colorado --- Mud Lake is a special place for us to help us acclimate to the altitude after returning from Florida.
Mud Lake	We enjoy Mud lake --- Close to our home --- we try to visit daily --- Over [the] years we enjoyed the wildflowers, several years in a row we saw a Wood Lily --- rare --- have not seen it in over 4 years.
Mud Lake	THANKS!
Mud Lake	Not at this time

Ron Stewart Preserve at Rabbit Mountain	No
Ron Stewart Preserve at Rabbit Mountain	Love THIS TRAIL!
Ron Stewart Preserve at Rabbit Mountain	<i>I really appreciated your efforts to establish a one-way loop when COVID was more present in our community. That made me feel safer here. I am VERY appreciative of the county's parks and trails. I also support parks that do not allow dogs, when there is significant and healthy wildlife population to protect. Thank you for all your work in preserving ecosystems and trying [to] restore others back to good health</i>
Ron Stewart Preserve at Rabbit Mountain	Great space!

## Appendix F: “Anything Else” Suggestions

Park Name	Suggestions
Anne U. White	Allow mountain bikers access to more trails
Anne U. White	<i>Today was a light day, but often it gets quite crowded on this trail</i>
Anne U. White	Education is important: 1) Even compostable bags are trash --- NOT ok to leave behind EVER. 2) Orange peels, banana peels, not ok to toss --- If you pack it in, you must pack it out.
Anne U. White	More interpretive signs would be welcomed!
Anne U. White	Allow dogs on ALL trails
Anne U. White	<i>A LOT of other hikers on the way back.</i>
Bald Mountain	Perhaps thistle elimination to SE of parking.
Bald Mountain	I Hope I don't Become Regulated
Bald Mountain	Attend to trails BEFORE they need repair. Most visitors don't know about staying on or following a trail. The 6" signs Trail → everywhere would help.
Bald Mountain	I wish the City of Boulder would do a much better job of people control. Nature and wildlife should be the highest priority, then people
Bald Mountain	I like the idea of bikes and hikers together but it often seems like bikers don't yield to hikers.
Bald Mountain	I don't like horses on hiking trails because of horse poop
Betasso Preserve	<i>Should allow E Bikes here.</i>
Betasso Preserve	Really really nice 2 miles Mountain bike trail that needs some more warning of scary and steep but one day hopefully can do it like this with the same structure without walking most of it.
Betasso Preserve	Race is not important!
Betasso Preserve	Hiking is challenging with bikers
Betasso Preserve	<i>Would Like more MTn. Bike Trails in Boulder.</i>
Betasso Preserve	More trails for more people. :)
Betasso Preserve	Please create more linked trails for mountain biking. The Fourmile Connection to Betasso would be amazing. Heil Ranch should be open after the fire! Don't just prioritize hiking!
Betasso Preserve	More MTB trails.
Betasso Preserve	Survey should take into account day of the week and time of day.
Betasso Preserve	<i>---- let's keep it that way.</i>
Betasso Preserve	I support Sunday being for bikes only
Betasso Preserve	<i>Would love more MTB / hikers alternate day options on more trails. Also continue to allow dogs!</i>
Betasso Preserve	<i>I love hiking on the Betasso Preserve Canyon Loop, BUT it is intimidating on the days when there are bikes coming the opposite way. They have usually been generous, but I am often</i>

Park Name	Suggestions
	<i>the one who has to give way. I wish there were more days for just hikers on this trail.</i>
Betasso Preserve	More mountain biking trails!
Betasso Preserve	I'm a supporter of the proposed Eldorado Springs – Walker connection. :)
Betasso Preserve	<i>We always want more :). More trails please. More access for everyone!</i>
Caribou Ranch	Horses are the only thing that bother me on trails, bikes are fine!
Caribou Ranch	Horses should have a poop Box on them. There should not be piles of poop we have to walk around.
Caribou Ranch	I support hunting access THROUGH open space, so small and big game hunters can legally access NFS area via parking areas / trails that are open space. Just an idea.
Caribou Ranch	Perhaps signage asking larger groups to be aware of letting people pass would help avoid some conflicts.
Caribou Ranch	Allow access to the north and west for hiking
Caribou Ranch	<i>Please keep path for horse use!</i>
Caribou Ranch	I'm not sure what's fair but love to see proposition [omitted because illegible] base access for bikes.
Caribou Ranch	It would be nice to know what was past the mining buildings.
Caribou Ranch	Need over-Flow parking. Open the connection to the Rainbow Lakes trails
Caribou Ranch	Keep as wild as possible; no vehicles, bicycles, etc
Carolyn Holmberg Preserve	More benches along the way, especially in the shade
Carolyn Holmberg Preserve	Bikes need to share trails better
Carolyn Holmberg Preserve	Bikes speeding make it difficult. Mowing spews the cut grass onto the trail --- maybe a longer or higher chute. App where you can plug in specifics (ie. how far you want to go, what activity) and it will tell you where to go.
Carolyn Holmberg Preserve	I would like more "loop" trails.
Carolyn Holmberg Preserve	If there were additional trash containers located on the trails, MAYBE the folks who fish would be more likely to pick up after themselves. Addition[al] "descriptive / informational signage" would be nice. Water fountain!!
Carolyn Holmberg Preserve	The bike bypasses instead of the gate are welcomed and work great even for an old guy like me.
Carolyn Holmberg Preserve	People not walking side by side and blocking people from passing is the biggest interference
Carolyn Holmberg Preserve	More trails
Carolyn Holmberg Preserve	One of the Eagle fledglings has fish line around its neck.
Carolyn Holmberg Preserve	<i>Preserve more open space! Okay to have open space with NO access</i>
Carolyn Holmberg Preserve	Buy more lands!

Park Name	Suggestions
Carolyn Holmberg Preserve	Consider families with kids for #11. Kids on bikes need their adults with them, but they're not going at crazy speeds. Are they really "bikers" @ a hiker's pace?
Carolyn Holmberg Preserve	More e-bike accessibility on MTB trails! Maybe a program of annual inspection / license with sticker and fee to enforce class? Then enforce trail courtesy for all!
Carolyn Holmberg Preserve	<i>Worried about coyotes---where are they? The greatest concern for safety is when the cattle break from pens.... Some repair is needed on the path ---</i>
Carolyn Holmberg Preserve	Bring in some net commercial fishers. It'll bring back this pond
Carolyn Holmberg Preserve	<i>Wish there were more connecting NE Boulder CO to Boulder. (Arapahoe is a dangerous Ride. No Bike Lane).</i>
Coalton Trailhead	Question 16 does not represent all diversity. I am an indian from India and feel very under represented or even not represented at all. We are part of this community for 19 years and are tax payers
Coalton Trailhead	More people → more trails needed :)
Coalton Trailhead	Please continue to protect open space
Coalton Trailhead	Outside of County folks should have a tag or fee. we pay taxes for this open space Broomfield and Jeffco are pro development So we are supporting their need for open space.
Coalton Trailhead	Can you build bike trails by the road (93)? It seems like wildlife impact would be minimal in the road corridor / right way, and bicyclists would like it! THANKS!
Coalton Trailhead	More single track
Coalton Trailhead	Find a way to prevent "go arounds" --- to prevent the trail from getting wider; (when it rains or is muddy)
Coalton Trailhead	Giant Open Space Park, More trails needed. Stop putting 2-3 Rocks on trail, Small Gravel needed
Coalton Trailhead	It would be nice to separate hikers / walkers and bikers --- rather than alternating days.
Coalton Trailhead	Please approve the Eldo-Walker connector!
Coalton Trailhead	Fix the potholes in the parking lot urgently!
Coalton Trailhead	<i>I hike or ride my e-bike generally on weekdays to avoid crowds.</i>
Hall Ranch	Need an easy way to report people who disregard "No Dogs" rule
Hall Ranch	<i>Smooth out some of the technical for mtn. biking</i>
Hall Ranch	I would Like to see access opened to the Northeast of the park involving a hike up Lookout Mountain. There is real historical significance And lots of scenery and elevation gain.
Hall Ranch	Night access please. At least for lyons residents. Trail head from town of lyons.

Park Name	Suggestions
Hall Ranch	Intertwining trails For Hikers and Bikers Separate surfaces. This would double trail miles. Sometimes trails side By side other times they cross each other
Hall Ranch	Please Don't alter the difficulty of the "Rock Garden". Boulder County has hundreds of miles of "easy" biking trails and many of us desire challenging technical rides
Hall Ranch	When the trails close because of rain, it would be nice if some of the trails could stay open.
Hall Ranch	Build more bike only trails everywhere
Hall Ranch	No horse damage / droppings on trails!
Hall Ranch	<i>More MT biking!</i>
Hall Ranch	We could use a couple more MTB only trails. Would make everyone happy. :)
Hall Ranch	I'm a biker, Antelope should probably be for hikers.
Hall Ranch	<i>I strongly support multi use trails but sometimes when it is very crowded I prefer the hikers only trail</i>
Hall Ranch	More bike only DH trails
Hall Ranch	Want all of good trail for Boulder.
Hall Ranch	<i>Really Liked the one-way (clock-wise) on Nelson Loop. Please Consider making that permanent.</i>
Hall Ranch	I appreciate trails being closed when wet, but probably should be extended for cyclists. Also, might consider closing parking, but not trails so locals can use.
Hall Ranch	Too many "Mud" closures. Make it Hiking only on those days.
Hall Ranch	Improve trail etiquette information.
Heil Valley Ranch Picture Rock Trailhead	<i>Please don't ticket Dusk / Dawn responsible trail users.</i>
Heil Valley Ranch Picture Rock Trailhead	More educational stop points. History / Why called picture rock?
Heil Valley Ranch Picture Rock Trailhead	More trails, Please
Heil Valley Ranch Picture Rock Trailhead	Please Build more trails!
Heil Valley Ranch Picture Rock Trailhead	More trails --- riding in O.P. would be nice
Heil Valley Ranch Picture Rock Trailhead	Suggest some go-arounds at Hall Ranch Bitterbrush [trail], Rocky area
Heil Valley Ranch Picture Rock Trailhead	Continue to improve trail flow for bikes.
Heil Valley Ranch Picture Rock Trailhead	More MTB trails please!!!
Heil Valley Ranch Picture Rock Trailhead	Please create more trails. Specifically: 1. LOOPS INSTEAD of OUT-AND-BACK 2. LINKS BETWEEN OPEN SPACE (E.G., HALL-HEIL) 3. LINKS TO TOWN (E.G., BOULDER-HEIL)
Heil Valley Ranch Picture Rock Trailhead	I am both a hiker and mtn biker. Need to be more open to biking. Need more trails [for] mtn biking. Hiking only trails tend to be less maintained, more social trails.
Heil Valley Ranch Picture Rock Trailhead	Maybe more signs to let bikes know to say they're right behind you, or something like that.
Heil Valley Ranch Picture Rock Trailhead	Just some more signage for bikers

Park Name	Suggestions
Heil Valley Ranch Picture Rock Trailhead	More trails!!!
Heil Valley Ranch Picture Rock Trailhead	More trails
Heil Valley Ranch Picture Rock Trailhead	One way
Heil Valley Ranch Picture Rock Trailhead	Keep working on getting fire burn area open.
Heil Valley Ranch Picture Rock Trailhead	Heil Ranch Picture Rock: I mostly ride 3.3 miles to the old red car and turn back. If Heil is closed due to mud but the last 3.3 miles is dry, could you keep the 3.3 open
Lagerman Agricultural Preserve	Fight the weeds
Lagerman Agricultural Preserve	1. Needs more signage / enforcement of off-leash dogs. Lots of people let Their dogs chase the wildlife, and plead ignorance when Told it's an on-leash area. 2. Can you planT a few Trees next To The great benches?
Lagerman Agricultural Preserve	Although I understand the season bird closure, I do like when you can complete a loop around reservoir.
Lagerman Agricultural Preserve	Have the horse Riders clean up the horse Sh*t on the trails. If Dog Owners have to Clean up after their Dogs then horse Owners / Riders Should have to Clean up the huge Amount of Horse Sh*t left all over the trail :)
Lagerman Agricultural Preserve	If you are going to close a trail for maintenance, please post some warning at the parking lot or trailhead. It was closed way into the loop this year, with NO warning until you got there. Only option was to turn around and go back.
Lagerman Agricultural Preserve	Need more trails where dogs can be off leash
Lagerman Agricultural Preserve	Enforcement of horse trailer parking.
Lagerman Agricultural Preserve	No conflicts today, but have had conflict with off leash dogs in past.
Lagerman Agricultural Preserve	People should be educated of trail etiquette: dismount when riding a bike or walk when approaching horseback riders; pick up after yourself; Share the trail.
Lagerman Agricultural Preserve	Blue Sky trail Should have more exits. I broke down on bike and had to walk 2+ miles.
Lagerman Agricultural Preserve	More signs and explanations as to why bikers and others should yield to horses.
Lagerman Agricultural Preserve	Restoring native habitat
Lagerman Agricultural Preserve	I would really support an educational board about Horses on trailheads! Most people have no idea How --- and How unexpectedly Horses can react! And for the fact that once they React they cannot physically think, which makes them potentially incredibly dangerous.
Lagerman Agricultural Preserve	Add SUP As An Activity
Lagerman Agricultural Preserve	In an ideal world somehow I would like people to be more educated on trail etiquette, to walk through mud instead of trampling vegetation, to stay to right side of trails, to control

Park Name	Suggestions
	dogs, for bikes to yield to peds, to respect wildlife and habitat and appreciate what we have rather than over use it.
Lagerman Agricultural Preserve	There are wooden ties separating trailer parking. They make it difficult to tie horses to the trailer.
Lagerman Agricultural Preserve	It is very important here to maintain the seasonal closures for nesting birds. this is such a great hot spot for birds! a lot of people come to walk dogs, so please keep the seasonal closures. Wildlife deserves space free from humans and their dogs.
Lagerman Agricultural Preserve	Better Maintaining road in would be nice
Legion Park	I would enjoy more mountain biking trails
Legion Park	<i>BIKE RACKS!</i>
Legion Park	Why don't you explain on placards like they do in national parks as to what people are looking at. Or --- where is Longmont, Lafayette, Nederland, Sugarloaf etc. --- this is a high point to show interest!
Legion Park	<i>Develop more bike trails in Boulder County please! I will happily pay to park.</i>
Legion Park	It would be wonderful if dedicated bike paths would connect the parks and cities of the county. I've lived in the Netherlands where bike infrastructure is years ahead than here.
Legion Park	Boulder park system needs proper Bathrooms. Disgusting port-o-potty if you're lucky. Boulderites deserve Better. Where does the money go? Valmont frisbee park is a disaster. Boulder should have the best parks anywhere
Legion Park	<i>My only complaint is when people don't clean up after pets and ignore leash areas.</i>
Legion Park	I've been coming to this park for 53 years -- This [is] a very heavy use park by commuters and sightseers. The Big issue[s] with this park are noise (loud stereos), smoking / ecigs outside the car, drug deals and some camping issues / fires. Most of these could be solved by better supervision and better signage -- but we all [know] that's not going to happen.
Mud Lake	At Betasso: The bike-created banked curves that have widened the trail excessively and demolished trailside flowers and vegetation is getting worse and worse. I'd join a volunteer group to close these, but mostly I think there needs to be a lot more biker education on this issue and brought to the attention of the IMBA and embraced by them.
Mud Lake	<i>Would love to know more about the protected wildlife area and what animals use the space.</i>
Mud Lake	Bring in some moose!
Mud Lake	We like to sit at the shady bench by the water. It would be nice if there were two more like it.
Mud Lake	Happy you have sanolets, but need to be cleaned.

Park Name	Suggestions
Mud Lake	Thank you for sanilet, but need to be cleaned!
Mud Lake	More freedom less rules
Mud Lake	I like some multi-use trails, but would not want all assigned as multi-use
Mud Lake	Normally I ride / hike / run mid week, and it's much less crowded. would love more trail miles in general. some bike specific trails would be lovely (elsewhere is fine, reynolds ranch or something)
Mud Lake	<i>Maybe a small open leash dog park nearby?</i>
Mud Lake	I would prefer separate days for different uses, but mountain bikers tend not to respect it anyway.
Mud Lake	Remove question 16. Don't know what purpose it serves
Mud Lake	Please prioritize the protection of our beautiful wildlife, especially MORE support for non-lethal management (relocation) for our declining keystone species, the prairie dogs! Thank you.
Mud Lake	More MTB trails! :)
Mud Lake	Please don't close at Sunset --- or issue local after-hours permits.
Mud Lake	Wish I could take my dog on Caribou trails
Mud Lake	A smoother drive in road would be nice. But it is Colorado!
Mud Lake	Would love more mtb trails closer to Boulder and Ned!
Mud Lake	Groom dirt road leading to parking
Mud Lake	(*Respondent came back and asked to add this to his survey after getting a parking ticket: "Got \$60 ticket for parking on the road when all parking spaces were full. Should be allowed to parallel park on road between parking allowed signs when not impeding emergency vehicle access.")
Mud Lake	PLEASE add air fresheners to bathrooms. These trails are too easy! Need to challenge everyone
Pella Crossing	Bicycle etiquette needs to be taught in local parks, by people riding bikes, since they rarely announce their approach.
Pella Crossing	<i>Trash can on NW corner.</i>
Pella Crossing	Maybe add a number somewhere for injured wildlife.
Pella Crossing	I feel that BoCo open space spends more money on acquiring land versus building new trails
Pella Crossing	Trail width should depend on trail use and property.
Pella Crossing	Please please please limit parking to Pella Crossing use ONLY! NO road rider parking!!!
Pella Crossing	Would love more trails and variety for horses, better parking for trailers (like @ Lagerman)
Pella Crossing	Not about this space, but at Lagerman --- the trailer parking there is HORRIBLE!!

Park Name	Suggestions
Pella Crossing	More open spaces / trails for dogs. to[o] many open spaces don't allow dogs
Pella Crossing	Trailheads don't have enough parking especially on Flagstaff Rd. More restroom facilities and more bike racks. Also mitigation at Foothill locations would be a huge improvement.
Pella Crossing	Keep making more parks!
Pella Crossing	Appreciate no bikes HERE, although I love to bike!
Pella Crossing	<i>Please keep it well maintained.</i>
Pella Crossing	<i>Multi-use trails are also great, but get tricky with horses sometimes</i>
Pella Crossing	Please no dogs.
Pella Crossing	More fishing. Less Trump supporters.
Pella Crossing	Plaques of kinds of birds that hang out
Pella Crossing	Lot of airplane noise
Pella Crossing	<i>My big suggestion would be more pit toilets on the trails! I think it would be a big help!</i>
Pella Crossing	I'm not sure if my race has anything to do with recreation?
Ron Stewart Preserve at Rabbit Mountain	<i>The hunters get too much access in winter. It's not fair to other trail users --- especially with Heil still closed. Please charge people from Denver and Weld for parking!</i>
Ron Stewart Preserve at Rabbit Mountain	I've been coming to Rabbit For 20 years. It disappoints me that it has become so popular but that seems to be the case with most trails in Boulder County. The population growth that has taken place here drives that
Ron Stewart Preserve at Rabbit Mountain	I'd like more info on what you do with these surveys and statistics and where to view them prior to "improvements / changes" to the local trails.
Ron Stewart Preserve at Rabbit Mountain	The more signs or other types of info about the history or environment, the better
Ron Stewart Preserve at Rabbit Mountain	Please, please, please restore and re-open Heil Valley Ranch. We loved it, and miss it terribly. Thanks very much.
Ron Stewart Preserve at Rabbit Mountain	Timing is everything, Getting to the trail early matters.
Ron Stewart Preserve at Rabbit Mountain	<i>I would love to come here for photography before dawn or after sunset but it isn't allowed.</i>
Ron Stewart Preserve at Rabbit Mountain	<i>Please continue to stop social trails before they are firmly trampled into place; Helping prevent further habitat fragmentation. Please continue to enforce dogs on leash, to keep them and the wildlife safe</i>
Ron Stewart Preserve at Rabbit Mountain	Little Thompson should be a loop
Ron Stewart Preserve at Rabbit Mountain	My experience on the trails is all about time of day and seasons. Answers vary based on these conditions.
Ron Stewart Preserve at Rabbit Mountain	More e-biking / mountain biking for people who need a little disability assist with their mtn biking.
Ron Stewart Preserve at Rabbit Mountain	Sign (visible) from vehicles

Park Name	Suggestions
Ron Stewart Preserve at Rabbit Mountain	Maybe add trail markers along the trails so people know the distance they have traveled on the path
Ron Stewart Preserve at Rabbit Mountain	More dog-allowed spaces
Ron Stewart Preserve at Rabbit Mountain	Heil and Hall Ranches should be dog friendly, please. Elk hunt should be shorter.
Ron Stewart Preserve at Rabbit Mountain	<i>The only negative experience I have had in 2 years is the few times dogs have rubbed up against me.</i>
Ron Stewart Preserve at Rabbit Mountain	<i>The parking constriction is necessary to keep the park from being over used. DO NOT PROVIDE MORE PARKING.</i>
Ron Stewart Preserve at Rabbit Mountain	Love to see fewer mountain bikers
Ron Stewart Preserve at Rabbit Mountain	Killing elk is a terrible idea --- alternatives should be explored!
Walden Ponds Wildlife Habitat	<i>One thing that could be improved --- making sure fishing line / lures are removed.</i>
Walden Ponds Wildlife Habitat	I would like explanatory signs
Walden Ponds Wildlife Habitat	Educate people with dogs about respecting horses.
Walden Ponds Wildlife Habitat	Signage for horse right of way.
Walden Ponds Wildlife Habitat	I know you try to mitigate thistles where they are invading. I worry about curly dock --- it is ruining fields and meadows further east in Boulder County.
Walden Ponds Wildlife Habitat	Specific days for kids field trips
Walden Ponds Wildlife Habitat	There are some Canadian thistles, teasels, cow parsley (I think), and dock that could be pulled or at least dead headed to prevent spreading so bad you feel you have to spray. No spraying pesticides please!
Walden Ponds Wildlife Habitat	Not sure what my ethnic origin has to do with anything
Walden Ponds Wildlife Habitat	Please watch out for the algae accumulation and cattails taking over water spaces.
Walden Ponds Wildlife Habitat	Keep opening the spillway from Boulder Creek, so the pond water levels stay robust.
Walden Ponds Wildlife Habitat	Maintenance should be focus now rather than acquiring new open space --- trash pick up and bathrooms.
Walker Ranch Ethel Harrold	Phone booth for emergency
Walker Ranch Ethel Harrold	Should have a bigger parking lot for cars. They shouldn't park on the side of the road!
Walker Ranch Ethel Harrold	<i>My only suggestion: limit the cars in this lot and road.</i>
Walker Ranch Loop	E-bike access would be nice
Walker Ranch Loop	The restrooms need more cleaning and additional facilities at Crescent Meadows would be great.
Walker Ranch Loop	Mountain Bikers should be very careful of dogs and hikers
Walker Ranch Loop	Bus option, a dog friendly bus
Walker Ranch Loop	Off leash dog access (on the Crescent Meadows side, which I realize is Eldo property) would be really nice. For the newish trails (the ones redone in past 2 years), they should've had

Park Name	Suggestions
	berms (barked turns) for bikes --- kinda sketchy without that given how loose they are.
Walker Ranch Loop	More water access at trailheads
Walker Ranch Loop	It'd be nice to consider shuttles to Walker Ranch, too!
Walker Ranch Loop	A single direction for the bikes would be nice
Walker Ranch Loop	Designated parking for Boulder County residents at trailheads! :)
Walker Ranch Loop	<i>Don't remove any more tech.</i>
Walker Ranch Meyers Homestead	Please keep trail open to mtn. biking
Walker Ranch Meyers Homestead	<i>Sometimes it's sad when we encounter a lot of crowding. It's bittersweet, crowded but it's good people are getting to enjoy (outreach).</i>
Walker Ranch Meyers Homestead	Don't put more parking in
Walker Ranch Meyers Homestead	I do not like pay parking and I avoid these trailheads now that I used to enjoy immensely
Walker Ranch Meyers Homestead	<i>It would be great to add a loop trail to this park (around homestead?).</i>
Walker Ranch Meyers Homestead	<i>Will always suggest infrastructure improvements</i>
